

RAIDERS BEWARE - American bank  
tests new device for protection against  
robbers. -California-

---

Picture:- You have heard of bank raids ! Now you are  
going to--

--see one ! Here's the teller ! The--

--man they get--

--because he handles the--

--money ! Still customers come, but what's this ? The  
hold up !

Watch that--

--gun, man !

He missed him ! See--

--the steel gun slot,--

--the raider's stopped one,--

--the hold up's over,--

--and the robber's out !

You see, the raider thought he had shot the teller--

--but he shot only a reflexion in the mirror--

--and left the live man behind steel plates to shot back.

Great idea to make robbers think twice !
