

MICKY THE MECHANIC - The perfect garage

assistant discovered at Prescot, near Liverpool.

-Lancashire-

---

Picture:- Here's a curiosity ! A garage mechanic (Jump to it !) who likes work ! Come, come now ! Less of that in business hours ! It's not done !

He knows the correct tool, & how to use it ! He holds down his job by sitting on it. He's got brains !

Mr. Whitehouse bought him from a sailor - don't suck that dirty handle - So all hands to the pump - -

--- don't do it - may come naturally ! Dont' - never mind - perhaps he's still cutting his teeth. Smoking is his vice ! He's paid in cigarettes.

Clean about the house - er - garage - Dirty work mending punctures !

4½ years old ! Just a baby but old in gears ! None of that monkey business ! Probably recognised a friend - -

--or noticed a speed cop ! He's got a kind face,--

--hasn't he ? They wouldn't have the heart to endorse his license. Now he's really off,--

--and back again ! He is nearly human ! That's beer, that was !
