

"DON'T'S" FOR THE HUNT - The Master of the
Hampshire Hounds lectures young visitors
on Hunting Etiquette.

-Near Basingstoke-

Picture:- We knew that hunting is one of the primitive
instincts of man (and woman, by the way !), but this
sort--

--of Hunting has to be taught. It has an etiquette of
its --

--own, and one mustn't offend. I am sure that was--

--a funny story. Now I am certain of it ! Major Evans
has a WAY with him. After lecturing the children, the
Master, that is Major Evans, takes them for a ride.
(That's--

--not American slang) and gives practical instruction--

--in hunting manners. If they have to hunt--

--up a living as well, they'll be busy later on !
