

ON THE RUN ! Visitors to St, Moritz welcome
the opening of the Cresta Run.

-Switzerland-

Picture.:- With the coming of a cold spell (Careful !)
the Cresta--

--Run has again become the most popular slippery slope
for those who like the thrills of plunging headlong
downwards on--

--one's stomach at a speed of (Whoop !) - anything --

--up to fifty miles per hour. It's dangerous--

--but not so bad as it looks and not worse than many
other sports.

Barring accidents, it's an exhilarating pastime
in the crisp cold air--

--of the mountains. Here's one who has lost his mount -
Stick it ! -

A lady spectator once slipped--

--on the track, and made a spectacular but painful descent.
She found it was a cold, hard, world !
