LOOK OUT SHARKS ! Plucky anglers help to  
ridde the sea of dread scourge.

-Gulf of Mexico-

Picture. :- Some of these fellows wanted jobs. Jobs--  
 --weren't easily found, so they created one for themselves.  
 Shark catching ! Not the land--  
 --sort ! There's a good--  
 --market for their skins, teeth and bones, and--  
 --shark fin is a great delicacy with Chinese epicures.  
 Nobody who has--  
 --to do with the sea--  
 --is sorry when sharks are killed. Ocean wolves, which  
 prey on the smaller fish, and in tropical inlets and bays,  
 wee--  
 --betide the bather who is seen by one--  
 --of them ! Incredible speed, a flash of a --  
 --white belly, a flurry of crimson foam--  
 --and the swimmer is gone. Treacherous fellows - and --  
 --oh Grandma' ! What big teeth you've got !
