A SLIPPERY SURPRISE - "Silver thaw" gives motorists  
an exciting time on Toledo Bridge.

-Ohio,U.S.A.-

Picture:- England had a taste of--  
--this sort of thing some--  
--days ago. Morning motorists slid all over the place on--  
--icy roads. Oh!--  
--Where do I go next ?

Gravel helps drivers to get a grip.

The wheels go, but the--  
--car won't ! It's easier to push them--  
--than drive them. A few unemployed make a--  
--little hay before the sun shines too hard. Here's  
another--  
--going anywhere !

And another going the same pace and can't do  
anything about it! All he can do is to hold tight,  
and wait ! He's a very backward driver !
