FISHING IN A BATH - Parisian anglers can
now enjoy their pastime indoors !

-France-

Picture:- you may think you know most of the indoor
sports, but here is--

--a new one ! These fish are being thrown into a
swimming--

--bath. They are nice fish too ! At least, as nice
as live, slippery, fish can--

--be nice for handling. Well, after being kept--

--in a small tank they get into the swim again. They
think they--

--are free, but it's a catch ! It is too ! One has
swallowed the bait !

The fishers pay three francs for the rod and their
catch, if any, may be--

--cooked and eaten on the premises. The fish are netted--

--so that their bath may be cleaned. If French fish can
talk Billingsgate, I'll bet they are doing it !
