

SCHOOL FOR SKI-ING - Young Berliners prepare
for the coming of snow.

-Germany-

Picture:- Peculiar house boots, but it's a school !

This instructor is talking!- Take my word--

--for it, although you can't hear him - to his pupils who
are taking--

--the sssh out of ski-ing.

Learning why skis have turned-up toes, and why - oh ! -
This is--

--the movement for - er - pushing off - and keeping on --

--when you've - er - pushed off ! This shows you how to
turn round, and come back without getting your feet in--

--a knot. This is a quicker way to turn round and land all
square ! ,--

--if your skis--

--don't hit anything half way over ! Easy !

Now for some real practice.

EFFECTS AND MURMURS OF VOICES OVER NEXT 3 SHOTS.

And they're ready for the snow ! It's softer to fall
on !
