

MIDNIGHT TORNADO - Ruin and desolation follow
in the wake of terrific storm.

-Camden, U.S.A.-

Picture:- A midnight tornado caused this terrible
destruction. When people were--

--peacefully abed, this raging demon whirled down
from the South, and--

--wrecked all within its path. A tornado is no
respector of persons--

--or places, and it destroyed churches and law-courts
along with--

--humbler dwellings. The vicious blast uprooted trees,
lifted them up and flung them away like twigs. The
toll of life is at least one--

--dead, and rescuers are still seeking missing persons.
