A HAZARDOUS SPORT - Thrills of the
International Ski-jumping Meeting
on the Olympia Hazard at St. Moritz.

-Switzerland-

Picture. :- As a rule when people take a holiday at St. Moritz, they work much harder than usual at something like this ! Launching oneself at a --

--terrific pace down the slopes, leaping off hills, and flying through--

--the air over a valley, is a thrill which is not easy to surpass. There's also the--

--thrill which comes with danger.

To hesitate or lose one's nerve on the leap often results in a few--

--broken bones, if not something worse ! Look at the speed of this man ! Umpteen miles an hour !

And then ! - Oh ! - A great jump !

A good landing, too ! And he's off again with flashing speed down the last slope of the--

--jump. A few hundred yards, and he - oh ! oh ! a tumble ! That's better than charging into the crowd. No harm done !
