**"RIDING BASKETBALL" - American cavalrymen adopt
and adapt an old game as a new sport.**

-Fort Myer.U.S.A.-

**Picture.:- Another new American thriller ! This is the
first game played between teams of Cavalrymen.**

It is a combination of basket ball, polo, football,
hockey and rugger, and they use a soccer ball. When the
ball is dropped, the nearest man may dismount and pass--

--it to a mounted player, but only a mounted man may score.
There's an example of brilliant passing,--

--and then a goal, or try, or touch-down, or whatever it is
they call it ! Another cavalry dash at a thundering pace.
The ball is down and a man after it !

A shot is tried but missed.

Then another score !

Can't complain of this game--

--being slow ! A dismounted man may get a kick in the neck
any minute !

Off again to score or whatever-it-is ! Done it !
