GOLF IN THE GARDEN - Machine designed to  
improve one's golf demonstrated at Worsley.

-Lancashire-

Picture:- Remember that drive you fozzled on Sunday ?

The one you sliced into the rough !

Remember what you said ? - No ! Don't remember that !  
It's--

--too awful. Well, here's a machine which will--

--improve it. No, not your language ! Your golf ! It  
tells you how far you drive,--

--and what you do wrong.

And moreover, it tells you polite printable language.  
What a partner !
