MISSISSIPPI FLOODS - Tragedy stalks through
the countryside when raging torrents burst a
levee.

-U.S.A.-

Picture. :- Not for the first time, the Mississippi River
has burst its banks,--

--and let loose the flood monster which destroys all in
its path. When people were sleeping quietly in their
beds, the torrent descended upon them. It broke through
at three points on the--

--Tallahatchie River, a tributary of the Mississippi,
and poured relentless death over thousands of home-
steads.

Many in the stricken area took refuge on roof--
--tops, in trees, and in boats.

The more fortunate fled to the higher ground where
tents and the necessaries of life--

--were provided for them. The American--
--Red Cross feeds and cares for these poor--
--people until other homes can be--
--found for them. It's a terrible disaster!

AND SO, FOR THE PRESENT, I LEAVE YOU!
