

# The Dartmoor Mutiny ---

Scenes immediately following  
the most amazing happenings  
ever to occur in a British  
prison ---

Picture. :- Great happenings, my masters ! Fiction has become fact, and impossible melodramatic film plots have become real.

Dartmoor convicts have broken loose within the walls, fired their prison, demolished the clock tower landmark, and attacked the--

--authorities. After severe fighting they were driven back to cells by the police force who first put them there.

Warders are now doing fatigue duty; the convicts being kept close, while the powers of law and order examine the whole situation. In Britain, even the worst criminals will get a square deal,

--and the cause of the outbreak is receiving impartial investigation.

Pressmen interview the prison padre.

Anyway such a revolt won't occur again, and whether caused by reactionaries or --

--revolutionaries, the forces of law, order, and justice will still prevail.
