

AFTER TEN YEARS WORK - Mighty figure of
The Redeemer erected on mountain summit near
Rio de Janeiro.

-Brazil -

Picture:- Every believer must surely get a religious
thrill over--

--this magnificent piece of imaginative work.

It's the most colossal figure of Christ in the
whole world, erected on the--

--summit of a mountain fully half a mile--

--above the town of Rio de Janeiro. It dominates the
plains and seas for scores--

--of miles, and the whispering wind ever passing and
re-passing the outstretched arms murmurs a perpetual
benediction to the faithful.
