

Picture:- In the Washington State Reformatory, a startling experiment--

--is being tried out by Warden Joseph St.Peter.

A wonderful name for the "Keeper of the Gates", --isn't it ? Anyway, Warden Joseph has introduced a--
--complete self-service cafeteria starting from--
--the kitchen where prisoners cook the food, and--
--good food, too ! Soup ! Vegetables !,--
--and occasionally some fancy trimmings are added.

The cells are unlocked by a master--
--lever, and the prisoners line up for the dining hall. It is rarely you have seen the inside working of a prison and its convicts--

--like this. Permission is seldom obtained. This new--
--style of feeding is said to be a great success. Discipline has improved, and violation of prison rules has become far less --

--than it was. Anyway, here is a cross section of--
--life as most of us don't knew it. But don't let's be proud about it !

Remember what Dean Swift said "But for the grace of God, there go I".

AND SO, FOR THE PRESENT, I LEAVE YOU !
