SKI LEAP THRILLS - Famous Norwegian sportsmen
keep in trim for Olympic Games.

-Cary.U.S.A.-

Picture:- It's not often one sees imported snow,--

--but here is some. There's--

--not enough snow on the ski run, so the--

--Norse Club gets more from Michigan. Here comes
Sigmur Run, the world's champion ! See how he zig-zags
to reduce speed, and--

--Jim Carlos, the American follows the Norseman. They
will both take part in the Olympics - up ! - A great
jump, and a good landing and finish.

This is Mr. Vildt, another expert keeping in form -
Whoop ! - That's blotted his copy book.

This one is Homer Johnson. He starts well, but
finishes like Einstein's theory of light a bit bent.

Another Norwegian, Carol ! Oh ! A splendid jump !
Like a bird ! He breaks the record with 183 feet !
Yes, he's a sitter, and to cap that climax the twin
leap by the Ropp brothers, the pride of Norway. A
perfect jump (pause). If this is only practice, the
real Olympics should be worth seeing.
