

THE SPEED RECORD - Mr. G. E. Eyston creates
new world's baby car record at Pendine, Camarthenshire

-S. Wales-

Picture. Here we are at Pendine Sands where Mr. Eyston is--
--waiting to make his great speed dash. His asbestos
suit is tested with a blow lamp.

Those goggles back there above the wind screen
are Mr. Eyston.

His car is a seven horse power midget.

There is Mrs. Eyston who has come to--

--witness her husband's dangerous effort for British
cars.

The crowds are excited too ! Anything may
happen !

There he's off ! Hurtling along boggy sands at
120 miles an hour,--

--smashing his previous record of 114 miles an hour.

But the timekeepers haven't timed the run. The
gear won't work. All that for nothing ! Bad luck !

But he's trying again ^{with} ! The sands getting really
treacherous - one swerve and -

--he's done it ! He's achieved the tremendous--

--official speed of 118 miles an hour.

In just a baby car ! Some baby that !

AND SO, FOR THE PRESENT, I LEAVE YOU !
