NIIPPON'S REGIONS - The Emperor of Japan reviews
the crack regiments of his army at Tokyo.

-Japan-

Picture.:- To review the crack regiments of his army
comes His Imperial Majesty Emperor Hirohito. It was
only a few weeks ago that he narrowly escaped death
from a bomb thrown by a young Korean fanatic. Now I
suppose he is kept busy--

--signing orders and commands concerning a difference of--

--opinion between Japan and China. His Majesty is
greatly pleased with the efficiency--

--and high performance shown by the selected--

--regiments. This heavy artillery looks very smart - and
very destructive.

Japan's ruler is only thirty-one, married, and
has three daughters, but no male--

--heir. Well, it's the Land of the Rising Sun, so all
Japan still keeps hoping.
