BULLET-PROOF VEST - Inventor demonstrates
a useful garment to the police of Chicago.

-U.S.A.-

Picture:- The inventor of this waistcoat gets a good hearing at the Chicago Police Headquarters. He says it's bullet-proof,--

--and now all the detectives want one; and he's got the nerve to stand up and--

--prove it,--

--too. That's --

--a genuine--

--test anyway. EFFECT.

EFFECT.

EFFECT.

What a surprise the--

--gangsters will get when what ought to be a dead man keeps upright and--

--returns the fire. The bullets--

--went in all right but--

--not far. They just flattened out on the steel lining while the cloth and fibre absorbed 85%--

--of the shock. Throw in gun men ! You're wasting lead !
