MOTOR CYCLE SCRAMBLING - Competitors in
N.Hants contest experience a good shake-up,
at Hartley Wintney.

-Hampshire-

Picture:- Now you motor cyclists, why not have a
scramble ! Unfeeling bobbies--

--call a mere seventy or eighty on the road dangerous--

--driving, and the Dirt Track is cornered by--

--professional riders, so let's have a scramble !

These fellows are changing it anyway, and why not ?
You--

--can only break your neck at the very worst ! It's a
bit sore on the - er tyres all this bumping,--

--but oh ! look at this ! Get to aim high to--

--get over this little lump, but they do it !

That should shake a few nuts loose, --

--but this is where the worst snag comes. Sort of
so far but no farther about this ! Still the
scenery is good even if the going isn't, and
it's a fine day, anyway.

Hello ! Here's another hill near the
finish !! Well, boys and girls ! In future
beware of field--

--and woodland walks. You may get run over !!
