

VARSITY GIRLS AFLOAT - Good work by London

University Womens' Fours at Barnes.

-Surrey-

---

Picture.:- Girls will be girls, and some of these will be doctors, too,--

--but for the time being they are enthusiastic carswomen getting ready--

--at Barnes to start the inter-college races. This crew is--

--rowing for University College. They are all as keen as a--

--keen East wind can make them. Now they are warming to their job, and making good headway. The London School of Medicine is ahead with--

--the other competitors pulling their hardest to reduce the lead,--

--but the School of Medicine administers defeat and King's College crews have to swallow the--

--dose on water, if not in water !
