

THROUGH FIRE ON WATER - Exciting experience
of outboard pilots in 22-mile race at Winter Haven.

-Florida-

Picture.:- The first outboard obstacle race ever held !
These boats have to go through 17 lakes before they reach--
--the finishing line, and--

--they are losing no time. Sharp twists and turns,--
--and then straight reaches where they go "all out".

Come on, or there'll be a smell of singeing.

Through that, and ready for the next obstacle, and here
it--

--is ! More fire ! Right through the middle of it they cut,--

--and then the last test - whoop ! - and she's fifty yards
up the--

--beach on dry land. A sore trial for any well-bred
boat !

And a Prohibition Cup for the winner ! They fill
that with lemonade in America ! Sez you !
