

500-TON FALL ! Mighty landmark disappears when
big chimney "comes to earth" near York.

-Yorkshire-

Picture:- This land mark near York has weathered its
last gale. The brick clay pits have been worked--

--out, and the chimney stack's occupation is gone.
The supporting props are fired - and -

EFFECTS.

Five hundred tons of brick return to the--
--earth they came from. There's a moral in it !

EFFECTS.

The fall angle was calculated to an inch.
If it hadn't been, that house would now be a
flat !
