A NEW PROFESSION - American adopts wild duck  
taming as profitable vocation.

-Florida-

---

Picture.:- Mr. Tom Reed of Florida, is the pet of more  
birds--

--than any man I know.

As soon as he whistles, these ducks all--

--flock to him like bees round honey.

They're wild ducks, too, but by tremendous patience and--

--perseverance, he has taught them to recognise him and trust  
him. A thousand shy--

--ducks ! It's almost unbelievable ! He even makes decoys  
out of--

--them, and shoots down--

--the strange flocks they lead towards him. Don't like  
that ! Sounds like living on one's--

--friends ! They're not genuine, anyway ! They're all  
"Quacks" !
