FASTEST MAN ON EARTH - Sir Malcolm Campbell
returns home from his land-speed triumph at
Daytona Beach.

-Southampton-

Picture.:- I should say that even the speedy Berengaria
seemed---

--slow to Sir Malcolm Campbell on his return from
loitering along--

--Daytona Beach at 253 miles an hour. On his arrival
at Southampton--

--Sir Malcolm is greeted by the Mayor and representatives--

--of the various motoring associations; not of course
forgetting a proud but--

--modest wife. Of the 'Blue Bird', Sir Malcolm Campbell
said "she's an amazing car, and--

--a wonderful tribute to British engineering. The
fastest man on earth, with a devoted wife who is
pleased about it !
