

SCOTCH - WITH A DASH - Good form  
displayed by competitors in Scottish  
Women's Cross-Country Championship.

-Hamilton-

---

Picture.:- These Scottish lassies are not preparing for  
bed-time ! In fact they have got up rather early to-day  
to take part in the--

--Cross Country team race. A little of this heavy  
handed massage goes a long way.

A spot of vigorous exercise to loosen up the  
joints and muscles.

And then to toe the line for the great Scottish  
Cross Country event.

Now they're off on the race which will decide  
the Scottish Women's Championship for another  
year !

It's quite a big field, but the line soon gets  
longer.

All the way the runners are led by a young  
Dundee girl Nan Robson.

Here she comes ! A great little Harrier,  
with a 70 yards lead.

She's a favourite in sports circles and  
the win is a popular one.

And now the breeze is fresh, once more into  
the breaches ! Well trousers were made to cover  
a multitude of shins, so why not ?
