STEADY BOYS, STEADY ! R.N.V.R. men learn
to shoot at miniature rifle range in H.M.S.
President.

-London-

Picture.:- If you hear distant shots when passing this
ancient looking ship on--

--the Thames Embankment, don't be alarmed. The noise
will be coming from a rifle range--

--some ten feet below the surface of the river Thames.

It's here that the men of the R.N.V.R. learn to
handle--

--a rifle and shoot straight. Many good marksmen--

--receive their first training on H.M.S. President.
That one's rather low !

It's not their best effort, I'm sure !

These men devote their spare time to become
not only loyal, but efficient kingsmen, ready to
man the breach in a patriotic cause !

That's a great effort ! Two bulls dead over
each other ! Good shooting !
