

A DOG'S LIFE - Busy days at Kennels in
anticipation of canine Summer activities.

-Northaw.Herts-

Picture:- To lead a dog's life used to mean being
kicked from pillar to post, but these are lucky
dogs ! Petted, taken for nice long walks in the
Spring sunshine - - when the--

--spring sun shines - and posed for their photographs
like any other--

--film stars. Now for work ! Off they go !
Streaking away at full stretch with the joy
of the chase !

Exercise over they're groomed by attentive
valets and made clean and tidy--

--for meal time. No grumbling dyspeptics
around this board ! All--

--fit for the strenuous efforts expected of
them during the coming sports season. Don't
you wish you always felt as bright as they
look ! They're not gay dogs ! - They're
lucky dogs !
