

LOOK OUT, SIR MALCOLM - M.Stapp, French racing motorist, displays car with which he hopes to beat Sir Malcolm Campbell's land speed record.

-Paris-

---

Picture:- No, it's not a pepper box ! It's yet another motor car built to smash the land speed--

--record, or anything else that comes in its way. It is fitted--

--with three engines of 800 horse power each. Twenty-four thousand--

--horse power. Seems almost enough to me. Anyway,--

--in the summer, Monsieur Stapp hopes to push that machine along Daytona Beach at--

--something like 350 miles an hour and make Sir Malcolm Campbell's Blue Bird look like a half-dazed tortoise. Well, after taking a good--

--look at that extraordinary bus, I shouldn't be surprised at anything it does. Stop my vitals if I would !
