H.M.S. TIGER - Famous battle cruiser in  
the hands of ship-breakers at Inverkeithing.

-Scotland-

---

Picture.:- Witness His Majesty's Ship "TIGER" having  
her teeth drawn, claws out,--

--and being gurned into something quite unlike her  
own powerful, dangerous, self. Sister to Beatty's  
famous Flagship "LION",--

--"TIGER" took part in both Dogger Bank and Jutland  
battles.

In fact the Germans claim to have sunk her  
at the Dogger Bank, and were disagreeably surprised  
when she turned up later at Jutland. Never again  
will her smoke smudge the horizon.

The great battle cruiser's work is done, and now  
it's she--

--scrap heap. Such is life ! Well, if we've all  
fought--

--asloyally as she, we can be proud ! Hats  
reverently off for the passing of His Majesty's  
Ship "TIGER" !
