

CANINE DUDES - Dog Show entries visit "beauty parlour" before judging time.

-Portland,U.S.A.-

---

Picture:- I thought that women kept the Beauty Parlours open, but these dogs are--

--paying customers too. We must all look--

--our best at show times, and--

--these smell pups are to be--

--exhibited at the opening of the Kennel Club Show,Portland--

--U.S.A. . Even the bulldog has a special manicure--

--for the occasion. I expect there's a lady in--

--the case - the giddy old flirt !

He wants watching, or somebody will be in trouble !

Well ! He's still at it, having his whiskers trimmed too ! That bulldog's expecting a petting party as sure as his name's Drummond. After all that--

--trouble let's hope he picks a winner !
