CASINO BLAZE - While authorities argue
about water supply, big building is
destroyed by fire.

-Chicago.U.S.A.-

Picture:- It's a grand blaze, but a curious situation !
The burning buildings--

--are in a strip of land between Kennelworth and Wilness,
and when the firemen--

--from three cities arrived to put out the blaze, the
Police--

--of Kennelworth refused to--

--allow them to use the water. They argued--

--that the owners paid rates for drinking water only,
but not for putting out--

--fires. By the time the argument was finished the building
was finished, too ! So--

--a small fire on the roof--

--ended up in total loss. It was a--

--dance hall and Casino before this happened ! The owners--

--are now dancing with tears in their eyes !;
