ONE "MAN POWER" TURNTABLE - L.M.S.

install new device enabling giant engines
to be tuned by one man.

-London-

EFFECTS OVER FIRST SHOT.

More modern magic ! This new engine turntable
enables one man to move over 160 tons by--

--his own muscular effort, and it takes him less than
two minutes--

--to do it. Almost as quick as we right-about faced
for--our

--drill Sergeant. Still it sometimes seemed that
our equipment weighed about as much as--

--that engine.

EFFECTS UNTIL LAST SHOT.
