railway station !

-Northumberland-

Picture:- A new job for women ! Be a Station Master ! - -,

But pick one with a better name ! Deadwater !
Awful ! Miss Margaret--

--Wylie runs the whole business. Oiling the joints--

--and points, and making sure all is safe for--

--travellers - when there are any ! In her spare time,
after she's cleaned the station, been porter, lamp
trimmer, booking office--

--clerk, and signalman, she feeds her fowls !

After reporting to Headquarters that the Station
is still on the line, she waters the--

--daffodils ! Sometimes a train appears and then she's

--really busy. Brava Margaret Wylie, station master, -
- - er mistress ! - um !
