Picture.:- At Gosforth Park the Boy Scouts' permanent camping site, Chief Scout Lord Baden Powell arrives for the opening ceremony. The founder--

--of this popular and health movement has the pleasure of seeing--

--ten thousand scouts, rovers and girl guides parade smartly before him. A splendid practical demonstration of its success.

This grand old soldier takes the salute from all those youthful Britons who look up to him with such--

--great respect. Baden-Powell has given years of energy to the building of this organization. His reward is that the civilized world has followed his lead.
