

SCOTTISH "SHOW BOAT" - The good ship
"Letitia" laden with products of Scotland
sails on trade mission to Canada.

-Glasgow-

Picture:- The colours of the first national trade
vessel to leave these shores are hoisted on--

--the good ship "Letitia". Scotland has taken the--

--initiative in this new flotation, to secure business
with the--

--Empire. Here are the crew testing the equipment,
passing the Doctor etc.

They are taking these pipers with them, so
they will at least be able to "call the tune". Through--

--the person of the Duke of Montrose, the Prince of--

--Wales wishes the mission success. The ship's first
call is Montreal. Great results are expected in boosting
trade relations between this and--

--other countries. 200 salesmen representing British
firms sail with her. Well, I hope they have a good
"sail".
