"EXCELLENT" WORK - Naval team from H.M.S.

Excellent rehearse their field gun display for
Royal Tournament.

-Whale Island-

Picture:- You know what sailors are ! Watch this !
The team's--

--away, and over the first obstacle like a flash !
Speedy ! I--

--should say ! Now bridging an imaginary chasm.
The daring swing over with the rope, and making it
fast over the side to transport this weighty gun and
limber. This is a rehearsal for the inter sports
field gun competition for the Royal Tournament
at Olympia. Fast ! Well, they're sailors !
Over go the men and the bits and pieces with hardly
a pause for breath. Now the wheels ! - - - Away
they go ! - -

--- there's more yet ! - -The limber is slung and
with a passenger or two gets safely across. I said
these sailors were quick workers, and here's--

--the answer ! The gun assembled, and ready for
what ? ?

BAND EFFECT.
