RENEWING HER MAKE-UP - The giant liner "Leviathan"
enters dry-dock for annual overhaul and spring-clean.

-Boston-U.S.A.-

Picture:- The giant ship "LEVIATHAN" floats into dry
dock for a wash-and--

--brush-up ! And what a wash-and-brush up ! You--

--know how long it takes the--

--average lady to get ready for a date !; just imagine
that this lady wants a little help if she's to be in
time for anything !

But beauty experts can do most things ! So she
gets a--

--massage, a bath above the water line and a--

--coat of fresh paint where ever she--

--wants it ! When they've finished with her, she will be
as attractive and fresh as ever she was.

Those bows have out millions of waves which tried
to be too familiar with her, and if there's any pushing
to be done, she's got sixty thousand tons to do it with !
