

FIRE-FIGHTING THRILLS - Harrow's new fire-
engine named prior to exciting demonstration of
fire-fighting and rescues.

-Middlesex-

Picture.:- Harrow is first among the fire-fighters.
For the Wealdstone Hospital funds, this display of
old and new appliances gives the townspeople a real
kick.

This is the new engine for which the--
--rate payers have - - cheerfully I hope - - paid.
And to-day it--
--receives its christening from Sir Nicholas Grattan-
Doyle.

This Davey equipment offers certain easy descent
from a burning building, and Nurse MacDonnel proves that
she has faith in it anyhow.

The star turn of the show !

Miss Lily Payne takes a leap into the arms of 20
men. Takes pluck !

Hello ! Here's a van looking hot and bothered !
But it's soon cooled off by--

--a liberal application of water from the hose.

A fire fountain of flowing petrol. This event
gives the crowd--

--a real hot thrill, and there's a rush for front
seats.

But it's just swept away like this. Harrow's
new broom sweeps clean.
