CYCLISTS' RALLY - Wheelers from all parts of the north and midlands attend great "get-together" at Bolton-by-Bowland.

-Yorkshire-

Picture:- If you badly want a bicycle, a few hundred are here going spare !

No they're not ! Sorry ! They belong to these thousand wheelers from Manchester, Leeds, Bradford, Blackburn, etc. etc. etc. who have assembled to hear--

--a few words of wisdom from their club officials.

Of course, the baby can't be left at home !

Two's company - - er - - - but not for long !
Who--

--said marriage was a handicap ? Bot in these - - er - - modern days !

It doesn't keep people indoors anyway ! Well, spring is here ! The buds are popping on the trees ! The skylarks are larking in the sky, so why shouldn't cyclists start something ?
