

CHILDRENS SAFETY BRIGADE - Juvenile "police"

regulate traffic to protect fellow pupils.

-Evanston, U.S.A.-

---

Picture:- A new "safety first" scheme to protect children going--

--to or coming from school.

The youngsters working the gates have to be obeyed just the same--

--as a traffic policeman. It started in--

--Japan. American children saw the film --

--of it and--

--borrowed the idea.

Now if the kids--

-say "stop" it's "stop" !

The plan is working well,--

--and these gates--

--are to be erected at--

--68 dangerous street crossings in--

--the district where many accidents have occurred. The work is properly--

--organized, boys detailed for regular duty at set times and supplied with--

--uniforms. If any enterprising--

--Borough Councillor sees this, perhaps he will think it over "very sap!"
