WEMBLEY FACTORY FIRE - Fierce blaze destroys

600-tons of waxed paper in former exhibition building.

-Middlesex-

---

Picture.:- This is what Wembley children saw on their way to school ! One of the most costly displays ever witnessed in the--

--exhibition grounds . In the early morning clouds of smoke were seen issuing from the old Palace of Industry which for some years has--

--been used as a wax paper factory. Help was quickly--

--obtained, and many hours of fire fighting ensued. The efforts of five--

--brigades were needed to prevent the flames from spreading to many other nearby buildings. The--

--danger to life and property was increased by--

--rivers of molten waxed which flowed from the burning building. Great losses--

--were sustained before the fire fighters were able to check the conflagration.
