

C-418851

"ALERT AND BRAVE" - Annual display and presentation of awards to London fire Brigade.

-Southwark-

Picture.:- In recognition of deeds of gallantry ! While--

--saving life from a blazing building two firemen climbed brickwork by means of hook ladders to a fourth floor window and scorched by--

--enveloping flames effected a rescue. These are some --

--of the training exercises ! A tank of petrol is extinguished by the foam tender, a special appliance to deal with volatile inflammable substance.

To balance and support twelve stones of unconscious humanity while descending a fire escape--

--is a perilous proceeding, but it's almost an everyday job of the firemen.

A practice turn out !

FINISH SHOT WITH EFFECTS.

In a few seconds hoses are pouring water--

--from a high vantage point.

The job done they return home again to await a real call !
