AIR-MINDED ITALY → Air Force presents spectacular
show in honour of H.M. King Victor Emanuel. Rome-

Picture :- Italy's King Victor Emanuel and Signor Mussolini
are rarely photographed together !

But this is a rare occasion ! The Italian Air Force is--

--giving its first massed demonstration of the quality of
its pilots and organisation. The evolutions undertaken by
these dare-devil airmen are a revelation. They make
rings round--

--some competing services. One--

--item is bombing an industrial town and factories which
they do with an astonishing--

--accuracy. Practically every explosive--

--finding its target and destroying it.

With the King Princess Marie-Jose is a thrilled
spectator.

A great picture of a plane putting out a cloud
cover for the final attacking squadron.

Here is the biggest--

--thrill of all ! Planes dropping a whole hatching
of men with parachutes.

But they go, jumping into space and trusting that
the invention will work.

Italy's Air Force specialises in this type of
acrobatics and apparently excels in it,

--too ! The parachutes are as plentiful as thistledown,
and look as light ! This film will greatly interest
air services of the whole world !
