CAFETERIA ON WHEELS - Railway Company's new type
coach makes for happier travelling. -England-

Picture.:- Going for your holidays ? If you go by train,
you may enjoy your travelling rather better than usual !
Dull affairs these journeys,--

--aren't they ? But this arrangement should brighten
things up a--

--bit. - Refreshment bar - - or - -, pardon - cafeteria,
wet or dry, according to taste !

No these customers haven't dined or wined yet.
The wobbling is due to the train movement. You take your
tray, look over the eats, decide which sort--

--you dislike least, just grab it, and make for your
own dining--

--car seat. No ! Sorry ! You can't get away without
paying the bill first ! I forget that ! This scheme does--

--away with the irritation caused by waiting for the
waiter, who always seems to wait on--

--some one else. Well, happy days, and happy holidays !
