WATER SKI MARATHON - Thrilling scenes of unusual  
river race in Styria, Austria.

---

Pictures:- A world's record going begging ! A water ski--

--marathon has never yet had a record holder, so something has--

--to be done about it ! A race is organised, but only five men out of all Europe enter. The sport is too dangerous ! Once you tip over, there's no getting upright again, and you take your chance of drowning or suffocating ! The Austrian Government offers the winner a golden plate. Four experts and one mere clerk are the competitors ! A clerk on water skis ! The experts smile, but the clerk sticks it !

Negotiating all this choppy water is no joke, and there's four miles of--

--it ! Four miles is a long way ! Only --

--one man finishes standing up, and that's the clerk ! The experts are explaining exactly why it happened,--

--while the other fellow collars the gold plate !
