

END OF THE FAST - Natives of Marrakesh
celebrate, with high festival, end of the
30-day "Fast of El Ramadan"
- Morocco -

Picture:- No wonder the boys and girls of Morocco make a
joyful noise. They have just finished 30 days --

fasting and prayer on the great square of Jama Alfoua - sounds
like Hampstead Heath on bank holiday. And here's a new idea --

-- in side shows. A young Moslem girl prepares a --

-- real thrill.

When the kettle boils, she takes a drink --

-- from it before your very eyes! What a throat she must
have. I suppose one could call that 'hard boiled' with
some truth. --

Ah! its boiling alright! There's the proof
for the sceptical. An Eastern Mystery!

DRUM EFFECTS.

And look at this fellow! His hands are
perfectly empty and dry and yet he is able to squeeze water
from them. An amazing feat!

Ah - the professional letter writer. For a few
ha' --

-- pence, he will write your private correspondence, like
this - "Dear Mother, I am sending --

-- you ten shillings but not this week"!
