BRIGHTER BEACHES - Troupe of clever
"physical culture" girls add to the
attractions of Bognor Regis.
- Sussex -

Picture:- Strong counter-attraction against the Pierrot troupes of old. What would our Grandmothers have said about this for --

-- beach entertainment ? Who cares anyway ! I thought "Spot the lady" was a three-card trick. These bathing costumes confuse one. By doing what these physical --

-- culture girls do, you will be able to hang things on your waist-line and tie your own show laces. These ladies also give lie to --

-- an old proverb, they laugh but they don't grow fat. All the people watching are studying exercises to --

-- turn up lazy muscles -- that's all (oh yea !)

-- Pardon my friend please, he's a cynic and weighs 17 stone. Even the charm of these girls couldn't make him ubber !
