

SPEED ON THE SANDS - - Thrills of the Southport
Motor Clubs' 100-miles car race at Birkdale.

-Lancashire-

Picture.:- Thirty high powered racing cars line up and--
--start for the 100 miles race along the ^{Birkdale} Southport sands.

This is the largest sand racing event of the North
of England year. Parts--

--of the course are rather treacherous and the drivers--

--take it somewhat cautiously. - - There's a near thing !
Just missed a--

--crash ! The hairpin bend pulls down the speeds, especially
when the sand's surface gets--

--out up. This is a tricky patch ! Anyone standing--

--near here gets a sand and--

--water bath. The prize is a--

--hundred guineas silver cup, and by the time he has done
the course--

--the winner will have earned it. J.H.--

--Bartlett wins, with an average speed of a--

--fraction under sixty miles per hour. Some sea side
trip !
